

Information Request for the Project Development

Project development by the students of Algonquin College

(for academic learning and grade purposes only)

Dear respectable client(s),

Please provide me with this information for your project development by our students at Algonquin College, Ottawa. Please add the required information below. After the processing, a team (semester 4, undergraduate: computer programming) will be allocated to you to assist you in developing your project. You may also contact me at butta1@algonquincollege.com. I am a professor in the School of Advanced Technology at Algonquin College, Ottawa. The project development will be free of cost for the clients, and students will earn marks/credits against the development.

Information Requested

Client's Real Name: Ife Adingupu

Business' Name: The Family Advocates Canada

Cell/Contact # (for professor's record only): +1 403 354 2817

E-Mail(s): i.adingupu@thefamilyadvocates.ca, info@thefamilyadvocates.ca

Project's Name: The Empowerment Support Project

Description of Existing Project (If):

Describe (If) New Project:

Short Description below (what to develop):

We want a database for project expenses reporting to be developed that will help us monitor the organizations that we serve as a fiscal agent for.

Proposal for Grant Database System

Created by: The Family Advocate Canada

Purpose: To develop a secure, user-friendly database system for managing grant requests, tracking spending, and ensuring accountability.

Project Summary

Family Advocate Canada requires a centralized system that streamlines the grant management process. The proposed system will enable users to submit grant requests, track expenditures, and maintain transparency through detailed audit trails and reporting features.

System Objectives

The system will meet the following key requirements:

1. Grant Request Submission
2. Spending Tracking & Reporting
3. Accountability & Audit Trails

System Overview

User Roles & Permissions

Role	Description
Admin	Full access to all system features, including data, user management, approvals, and reports.
Applicant/Grantee	Can submit grant requests, upload receipts, and view the status of their application.

Grant Request Module

This module allows grantees to submit requests and upload necessary documents.

Key Features:

- Form Submission: Applicants complete a structured form with required fields.
- File Uploads: Supporting documents (e.g., proposals, budgets) can be attached.
- Date Submitted: Automatically recorded on submission.
- Status Tracking:
 - *Submitted*
 - *Approved for submission*
 - *Unapproved for submission*(Grantee has to make changes to the application)
 - *Rejected*
- Grant History: Records of all past and current requests, maintained for each user.

Spending Tracker Module

Once a grant is approved, grantees can begin reporting their expenditures.

Key Features:

Field	Description
Spend Period	Duration allocated for the grantee to use the funds.
Grant Amount	Total funding approved and disbursed.
Budget Info	Itemized list of planned expenses with descriptions.
Eligible Overages	The maximum amount the grantee can exceed their budget (if applicable).
Disbursed Funds	Amount actually released to the grantee.
Remaining Balance	Amount yet to be released.
Spending Countdown	Visual countdown showing days remaining in the spending period.
Receipt Uploads	Users must upload receipts or proof of purchase for each expense.
Release date	The date when the funds will be released.

Reporting & Accountability

To ensure transparency and make information easier to understand, the system will include:

- **Graphical Reporting: Use of charts and graphs to show:**
 - Spending breakdowns
 - Budget vs. actual
 - Remaining funds
- **Audit Trails:**
 - Log of all changes and uploads
 - Record of reviewer comments and approvals
- **Downloadable Reports:** Export data to PDF, Excel, or CSV formats.

Security & Data Integrity

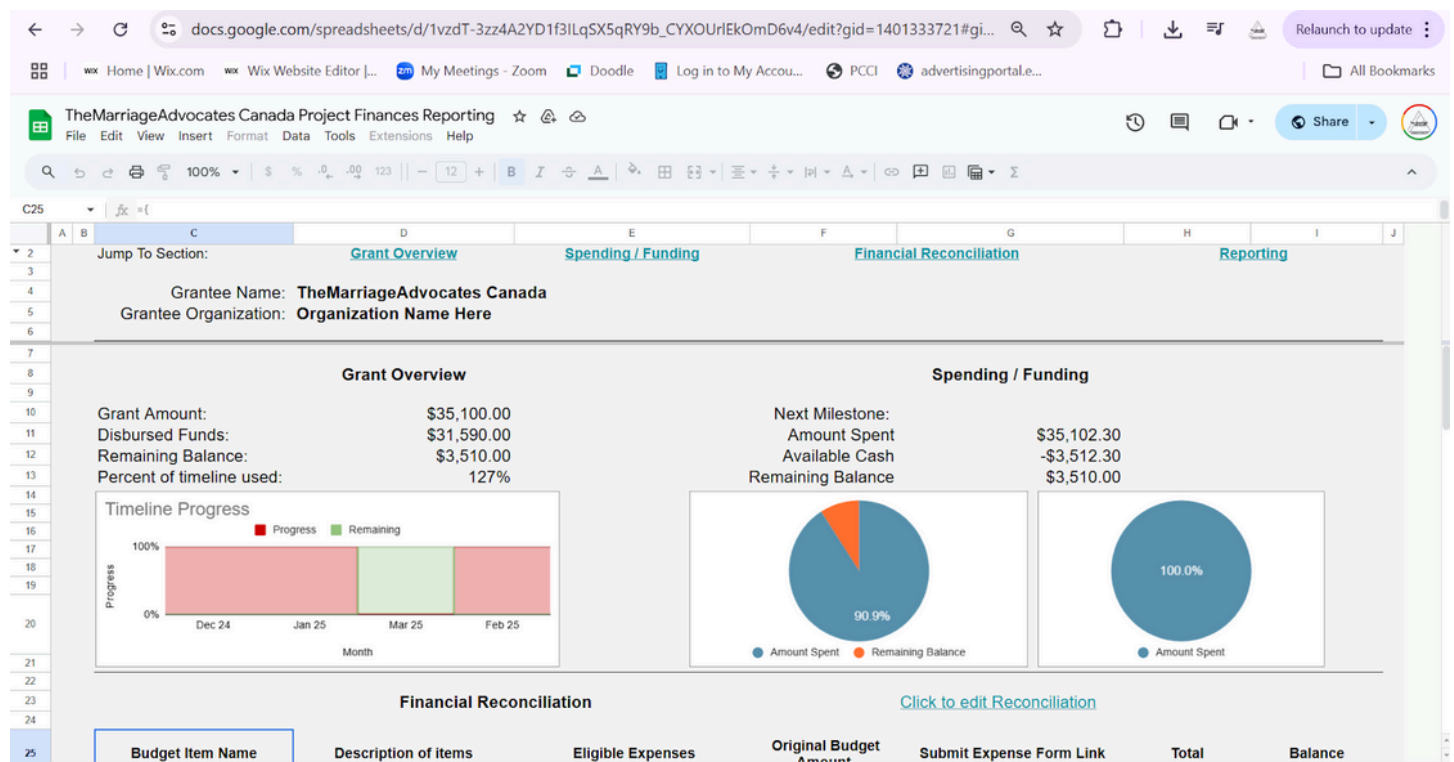

- User authentication and role-based access
- Secure file storage for uploaded documents
- Regular data backups
- Compliance with Canadian data privacy laws

Conclusion

This database system will provide The Family Advocate Canada with a reliable, secure, and user-friendly platform to:

- Manage grants more efficiently
- Track funds with precision
- Promote transparency and accountability

An example of what we expect is below in screenshots. We will be happy to meet with the team to describe and show what we would like this to look like.
